Subject: Revised and commented Bridgeton Dust QAPP Rev 1
QAPP for Pre-CERCLIS Screening at Bridgeton Dust Site - Rev 01 DRAFT TM.doc

I have made some edits and added some comments based on feedback from the EPA QA folks.

I think some of these are very minor and are language that the QA folks feel is necessary.

Sorry for getting this out so late.

I know your time is limited but we need to make this our highest priority tomorrow. We have to get this QAPP signed by EPA QA shop tomorrow if at all possible.

Let me know if you have any questions and I will be available. The QA folks are working tomorrow as well should we need to conference call with them.

Tom
